MALARIA **ELIXIR** BABEK WILL CURE

ELIXIR BABEK is a Southern remedy for an aliment best understood in the South and in all hot countries, where miasmatic conditions prevail. No part of the United States is, however, free from the dread scourge, which saps vitality and exposes the system to the attacks of malignant disease. HOT WEATHER is coming on. It, instead of warming, invigorating you, there is a chill feeling of winter lingering in your blood, MALARIA is yours, and ELIXIR BABEK will cure it—taken in time will prevent it.

USED ONLY HALF A BOTTLE Washington, D. C., Oct. 15, 1900. Gentlemen: This fall my little girl was again attacked by malaria. I sent for a bot-tle of ELIXIR BABEK, and I must say it has passed my most sanguine expectations. She has entirely gained her normal condition and has no signs of a return of the dread disease. One-half bottle only was used.

Respectfully.

A Rubber of Whist at the Club.

Our club is not a large one, and we

rather pride ourselves that it is not. Our club is on a side street, and we rather pride ourselves that we are not upon the avenue. There is an active but small minority that claims that we hug ourselves because we are not as other men are, that we have not what some other clubs have—a mort-gaged house, a stock ticker, a keen man at the door who can get you a box in the horseshoe at the opera or next the ropes at a prize fight; a card room where men may play for stakes they cannot afford to lose, and which, if they lose, they pay, if they pay at all, when next they win, thus making a clearing house with no governors.

It will be seen that we are, perhaps, a trifle old-fashioned, but the fact remains that when one of us has a male child born the father takes a cab-not an electric, we are still a bit skittish about self-propelled vehicles—and drives to the c'ub. Arrived, he marches to the big book on the table and enters for membership the little, lobster-hued, blinking, whining bit of protoplasm that he calls "my son." Then he looks about him for a seconder. If it is the late afternoon, the bishop may be there. If not, there is a little card room on the first floor, just off the reading room, where our prize members play their daily rubber, and where no young member ven-tures until 6:30, when the game ends. Betures until 6:30, when the game ends. Between the deals the father beckons to the admiral, the general, the banker or the judge (the quartet of the little room) and says, "Will you second my son?" "God bless me!" says the admiral; "of course I will; much honored, Simpson. We've been waiting for this a long while—had come to the conclusion that Mrs. Simpson was, perhaps, unnecessarily alarmed. What is your son, Simpson, a boy or a girl? I'll second anything of yours. Your deal, judge."

The Reason Why.

TITH every resort making reports of the heaviest year ever known, and the exodus from the cities increasing rather than diminishing, the season promises to be both lengthy and lucrative to managers, and more than ever full of events to the rovers.

Now that King Edward himself has given over the cares of empire and diplomacy and has betaken himself to Marienbad, the world of society is satisfied that its leading exemplar has forsaken the city and betaken himself seriously to health.

Bar Harbor has a brilliant social program for the next two weeks, and it will be strange if there is a single dull moment spent among society people there. Thursday, Friday and Saturday there will be the dog show, when all of the spoiled doggies of society will wear their best ribbons and be paraded by their fond mistresses. Great preparations are being made for the horse show August 21, 22 and 23, and as the wealthy residents have been most generous in offering splendid cups, there will be no end of interest. Miss Flora Wilson, daughter of the Secretary of Agriculture, and formerly the chatelaine of his Washington home, is about to undertake a trip around the world. Miss Wilson plans starting this coming autumn from Paris and going first to the holy land, thence to Egypt and the lotus lands of the east. She will go in a leisurely manner, and will probably be a year or two on the way. Miss Wilson has lived in Paris for the last three years. Official society rather palled on her, as she is a bookish young woman, and was not only a college graduate, but a teacher in the Iowa State University before her father was called to high honors in the McKinley cabinet.

News has been received from abroad to the effect that Mr. Grip, the minister to this country from Sweden, and one of the most popular diplomats here, has sold all of his property in Norway, which country he represented in connection with Sweden until the division of government, and after his retirement from diplomatic service will make his home in Stockholm.
